BONDOR[®]
Leaders in Thermal & Architectural Building Solutions

Patios with Comfort and Style

Affordable, Simple and Attractive

'The Original' Insulated Patio Roof, SolarSpan® is an ingenious combination of roofing, insulation and ceiling in one durable, functional and attractive panel. This all-in-one roofing solution has exciting design possibilities and countless benefits for your outdoor living area. SolarSpan® will improve your lifestyle and add value to your home with the least amount of effort.

The SolarSpan® Advantage

Blocks Heat

Extend & Add Value
to your home

Deadens Noise

Low Maintenance

Serviceable

Long spans create a
clean & flush ceiling finish

Strong & Durable
COLORBOND® Steel

20 Year Manufacturer's
Warranty on Patios & Pergolas

Versatile Design
Options

Comfortable Day or Night,
all year round

Smart ideas to beautifully complement your home

No area too small

Enclosed extension

Carports

Outdoor dining

Roof Styles

Two Storey

Attached Skillion

Fly Over

Freestanding

Carport

Free Standing

A free standing patio design offers an oasis away from the home positioned in front of a pool or a cosy spot in the yard perfect for weekend gatherings, family events or regular outdoor dining. Your SolarSpan® patio designer and installer can offer a gable or skillion roof design for a free standing patio with a variety of exciting beam and post options to complement your home.

Fly Over

A SolarSpan® fly over roof creates an impressive open living area with high ceilings for additional head room, air flow, day light and unrestricted views. Create architecturally pleasing roof lines to enhance your home and breathe new life into an existing deck or patio with new found space and added comfort all year round.

Gable

Create a grand opening to your outdoor living area with a SolarSpan® gable roof whilst giving your patio additional height and ventilation of hot air. A variety of gable infill and beam options are available from your SolarSpan® patio designer and installer to deliver an exciting patio design.

Attached Skillion

For a quick, simple and cost effective addition to any home SolarSpan's attached skillion roof will extend your living area, provide a multi-use carport, boat port or general cover area which will protect you and your most valuable possessions from the heat and cold. Your SolarSpan® designer and installer will be able to assist you design the perfect under cover area adding value to any outdoor area of your home.

The ultimate in Patio & Pergola design options

A SolarSpan® outdoor shaded living area offers the ultimate freedom in design. Select from a wide choice of modern COLORBOND® steel colours for your SolarSpan® roof, unique ceiling profiles, designer roofing accessories in COLORBOND® and a selection of stylish posts and beams available in prepainted steel, aluminium or stained timber.

SolarSpan® creates wide open spaces with a ceiling-like finish due to its long unsupported spans. This allows home owners to further customise their design with ceiling accessories such as downlights, fans and other lighting solutions.

SolarSpan® truly allows you to create functional and beautiful outdoor living areas that complement your home and improve your outdoor lifestyle.

Genuine COLORBOND® roofing accessories and gutters

Full range of lighting solutions

Designer structural beams to suit your application

Variety of post and column options

Fans and ceiling accessories easily added

SolarSpan® approved UltraSlim 9W Downlight Kit

SolarSpan® offers a recessed downlight kit for use in insulated roofing, tested to conform to strict Australian Standards for compliance peace of mind. Custom designed for Bondor® roofing products, unique features include a slim profile light to maximise insulation, IP54 rating for outdoor and indoor use, flush fit surface cover with ultra bright LED technology and low heat emission. Our downlight kits are available in a choice of warm or cool light colour, two trim cover options and include up to 12m of easy connect extender cabling for simple installation.

Note, that off-the-shelf standard downlights may not conform to Australian Standards for use in insulated roofing and professional advice is recommended.

For more information, see the SolarSpan® UltraSlim 9W LED Downlight guide for inclusions and technical specifications, including a lighting layout guide.

Don't risk it.

Ask your installer to supply only SolarSpan® 9W UltraSlim downlights approved for use in Bondor® roofing products, including 50mm thick SolarSpan®, which are tested and conform to Australian Standards.

*Note: 1. Applies to SolarSpan® patio covers attached to highest and lowest houses only.
2. Overhangs must not exceed immediate backspan by 25%.
3. For free-standing awnings it is acceptable to use 'Case A - 3 Open Sides', given that it is not blocked under.
4. The design for supporting members of free-standing awnings, including beams, posts and footings, need to be checked separately for strength, serviceability and stability.
5. Dead loads of up to 15kg/m² are allowed.
6. When using SolarSpan Naturelite skylight with minimum 2 full SolarSpan panels in between, spans to be reduced by 10%.
7. When using SolarSpan Naturelite skylight with minimum 1 full SolarSpan panels in between, spans to be reduced by 25%.
8. No foot-traffic on SolarSpan® Naturelite® skylight.
9. SolarSpan® Naturelite® skylight only acceptable in Non-Cyclonic regions. SolarSpan® Naturelite® skylight not to be used in Cyclonic regions.*

Experience

Bondor® has over 65 years of experience in the insulated panel industry and are one of the largest innovators of insulated products in the world.

Bondor® introduced insulated roofing to the Australian market 30 years ago offering an innovative insulated roofing product during 'Expo 88'. Bondor® has continued to lead innovation and now produces SolarSpan® across Australia with the latest in computerised laminating, roll-forming and cutting machinery.

SolarSpan's 20 Year Written Warranty

Bondor® have been producing insulated panel for over 65 years and have such confidence in their product that they offer a 20 year written manufacturer's warranty on SolarSpan® for patio & pergola home improvement applications.

SolarSpan® is readily available, with Bondor® manufacturing and distribution facilities across Australia.

*SolarSpan® Standard Warranty and BlueScope Steel conditions apply. Metecno Pty Limited. ABN 44 096 402 934. The manufacturer reserves the right to change the specification without notice. The colours shown in this publication have been reproduced to represent actual product colours as accurately as possible. However, given printing limitations, we recommend checking your chosen colour against an actual sample before placing orders. This advice is of a general nature only. Designers must provide for adequate structural performance and other Building Code requirements. This information is subject to change. Refer to Bondor® website for latest version. Consult Bondor® for your application. Check with NCC for permissible solar absorbance before selection the exterior roof colour. *Darker colours may be warranted for use in limited regions refer to www.solarspan.com.au as this information is subject to change. BON0056 SolarSpan Patio Brochure_Final - 13/12/2021.

Quality

Bondor® stands by SolarSpan® as the best quality insulated roof on the market and refuse to compromise on quality or your investment.

Manufactured with dual layers of Australian made next generation COLORBOND® steel with leading paint technology and activate corrosion protection, SolarSpan® prides itself on manufacturing nationally using Australian made and compliant materials.

SolarSpan® is designed and rigorously tested in certified labs to meet the Australian Standards and withstand our harsh climate, UV exposure and cyclonic wind conditions.

Confidence

Bondor's experience and quality assurance gives customers the confidence that they can enjoy their insulated roof for many years without concern.
